IGNITION PROOF SERIES

TRS21E

**FOR ALL REFRIGERANTS A1,
A2, A2L and even A3***

** The unit has been tested for use
with A3 refrigerants*

KEY FEATURES

- Lightweight 11.8 kg, easy to carry
- Most compact unit on the market, easily fits in your van
- Strong recovery rate through double cylinder, in line compressor
- Easy to use/understandable for any technician
- The fastest on the market when used with the MT69
- Starts even at high pressure thanks to the heavy duty 2/3 HP electric motor
- Less likely to break down due to its simplicity (less parts used)
- Fixed power cord of 3m length
- Automatic HP switch set at 38 bar and a red LED to indicate this shut-off
- Oversized cylinder head to reduce head pressure and temperature
- Needle bearings used to reduce wear
- Fully balanced stainless steel enforced crankshaft, pistons using durable piston rings
- High quality crankshaft and engine bearings
- Since 2012 only 5 electric motor replacements needed
