**IGNITION PROOF VACUUM PUMPS**

**VPB4D**

**VPB6D**

**VPB12D**

## KEY FEATURES

- For all refrigerant systems like A1, A2, A2L, A3 and NH3
- Fully spark proof, sealed electronics
- Fixed power cord of 3 meters
- Dual stage vacuum pump design, up to 25 micron
- Built-in solenoid valve, in case of a power cut the reached vacuum level remains
- Fastest motor/compressor design, double RPM at 2880 instead of 1440 RPM, double the speed
- Gas ballast valve integrated, as a result an easy start at very low ambient temperatures
- 1/4", 3/8" and 1/2" intake connections
- Sight glass made out of real glass instead of plastic and double sealed
- Useable at 230V/50Hz or 115V/50Hz
- 2 years warranty

### VPB4D

- Lightweight, 8,8 kg
- Electro motor of 1/3 HP, easy start up guaranteed under all conditions
- VPB4D reaches 102 L/min @ 50Hz

### VPB6D

- Lightweight, 11 Kg
- Electro motor of 1/2 HP, easy start up guaranteed under all conditions
- VPB6D reaches 151 l/min @ 50Hz

### VPB12D

- Lightweight, 15,2 Kg
- Electro motor of 1 HP, easy start up guaranteed under all conditions
- VPB12D reaches 302 l/min @ 50Hz
